

THE EU CITIES GATEWAY COMMUNITY

Practical Exchange. Real solutions.

The Community extends collaboration created through the EU Cities Gateway programme, allowing cities and partners to stay connected beyond project cycles.

It is **an open space for exchange and cooperation among cities, regions and stakeholders in Europe, the United States, Canada and beyond.**

Why Join

Members gain access to **practical knowledge, peer exchanges, access to experts and practical expertise, and opportunities to connect** with European and North American counterparts working on similar urban priorities. Members can also increase the **visibility of their city** by promoting their own **solutions and initiatives.**

How the Community works

Participation is **flexible** and does not require commitments. Cities and partners can engage according to their **interests** and **availability** — from contributing their own solutions, presenting initiatives and sharing knowledge to connecting with peers and participating in discussions.

Participants can:

- Stay informed about EU–North America cooperation
- Discover practical solutions from other cities
- Identify partners for future collaboration
- Exchange experiences, discuss urban issues and explore cooperation opportunities
- Showcase and promote their own city initiatives, solutions and achievements within an international community

FROM SHARED CHALLENGES TO COLLECTIVE ACTION

Who is part of EU Cities Gateway Community?

The Community focuses on **cities and regions in the United States and Canada** interested in cooperation with European partners, while also engaging cities from other regions- **including LAC and Australasia** - where there are shared priorities and opportunities for collaboration, bringing together:

- EU Cities Gateway cities
- Alumni cities
- North American cities engaged with the EU
- Partner initiatives and institutions
- Industry partners and private sector actors
- Cities exploring EU cooperation
- Urban experts and stakeholders
- Academic institutions and research organisations

Members can take part in:

Peer exchanges and solution showcases – thematic discussions and webinars

Knowledge sharing – insights, tools and experiences from EU Cities Gateway

Networking opportunities – connections with cities and experts

Exploring cooperation opportunities – future collaboration or pilot activities

Join the EU Cities Gateway Community to receive invitations to webinars, updates on cooperation initiatives, and opportunities to exchange and collaborate with peers working on shared urban challenges.
